Fastener C PAM

Description

FASTENER C PAM is a solvent additive for our COLOR INK PP PAM+ADD and COLOR INK PP PAMC.

Application

FASTENER C PAM can be used to increase the drying speed of our COLOR INK PP PAM+ADD and COLOR INK PP PAMC, when necessary.

Technical Specifications

Method of analysis	MU	Standard
84. Gas-chromatographic test Solvents	area %	Compliant octane / isopropyl alcohol

Handling

The quantity of FASTENER C PAM must be evaluated before printing; usually it is used instead of DILUENTE C PAM, because it is more volatile.

Use all the personal safety devices, because the product is flammable.

Packaging

The product is supplied in metal drums (10 kg).

Storing

Use within 12 months from production date (unopened and in the original packaging).

Build date 11 Sep 2025

Above information is reliable, but does not constitute warranty.
